VILMINGTON POST THE DEATH OF BISHOP ATKIN-SON. After a lingering illness of more than

a year, The Rt. Rev. Thomas Atkinson, D. D., L.I. Nearly the first symptons of that physical weakness to whose slow progress he fell a victim a year later, was observed at a ceremony at the St. James Church in this city. He was subsequently taken to Baltimore for medical treatment, hence to the White Sulpher Springs, thence back to Baltimore, and finally to this All advertisements will be charged a city, where surrounded by the tenderest minis rations which affection could suggest, be gradually sank to that last repose which knows no waking.

THE GREATNESS OF OUR AN IMPORTANT CIRCULAR.

The following circular was inned by the Republican National Co on October 8, 1880;

There were statues of great Americans, and copies of ancient masters, in statuary as well as painting.

The city adorned and beautified the stately old place, made the landscape charming with beautiful shrubbery and lawns, and fountains, built broad dancing halls, and created a charming cafe, with lounging places, private apartments elegantly fitted up, and which were crowded with corteges of fashion, and people lounged in the corridors from all parts of this country and Europe.

THE SECRETARY ON REFUND-

Secretary Sherman it seems is reluctant to interfere in the matter of refunding only so far as to secure such a aw as will make refunding a success.

"My opinions," continued the Secretary, "have been asked by many mem-bers of Congress, and I have advised them in all cases to vote for the meas-ure in the best form in which it can be passed in the House of Representatives, with a view to amendment in the Senate and a fuller discussion there of the de-tails of the bill. I have seen no reason to change the opinions expressed in my annual report."

semblance to the carefully matured re commendations of the Secretary of the Treasury. The Secretary proposed that Congress should authorize the issue of four hundred millions of Treasury notes, which would be substantially the same as bonds, inasmuch as they were to be in both the registered and coupon form, to mature at different periods within the next ten years, the amount maturing in any one year not to exceed the sinking fund for that year. The Secretary would thus have pro-vided for about three-fourths of the redeemable bonds, estimating straightout redemptions during coming year with the anticipated sur-plus revenues at about \$100,000,000. The Committee proposes to authorize four hundred millions of 3 per cent otes redeemable after one year and payable after ten years, the amount re leemed in any one year not to exceed forty millions. The feature of greatest novelty is contained in the provision that the particular notes to be re each year are to be determined by lot. The lottery system has been found to work well in some countries, where leans are frequently placed at a dis-count and where in the annual drawings the chance of drawing a prize-that is, of having his bond drawn for payment at par-is no inconsiderable element in the calculation of the inrestor. It is doubtful, nowever, if the mass of the American people, and especially of the investor classes, are educated up to the niceties of lotteries as a feature of National finance.

To provide for the remainder of the redeemable 6 per cent bonds the committee's bill authorizes an issue of bonds

be a long one if it is to carry to dispose of so large an ar to ten-year three per cents.

D. 1881. begin on the 4th of March, A. D. 1881. Understanding that lawful evidence of that fact has been presented to the Senate and filed in its archives, I have the honor to inform the Senate that I have, by letter, dated December 23rd, 1880, and addressed to the Governor and General Assembly of the state of Ohio, formally declined to accept said appointment and have renounced the same.

I am, sir, very respectfully, Your obedient servant, J. A. GARFIELD. To the President of the Senate of the

United States The letter was spread on the files he Senate.

In the House after the morning hour and expired, Mr. Springer of Ill., introduced a bill for the apportionment of representation in Congress among the several states, and to secure to the people of each state equal and just representation in the House of Represen-

A short discussion ensued as to whether the Committee on Election or the the Committee on Census should have charge of the bill.

Mr. Springer of Ill., stated that the bill embodied more than mere apportionment. It was drawn in accordance with the principles of minority repre-sentation. It provided for the same number of members during the next decade that now composed the House, 293, deducting the Territories and District of Columbia; the population of the country was 49,369,714, which being divided by 293, left a population of I68,498 as the ratio for one member of

The bill was finally referred to the Committee on the Cen Committee on the Census.

In connection with his remarks upon he apportionment bill in the House to-day, Mr. Springer submitted various tables on the subject. Under the bill the number of members apportioned to each state is fixed as follows: Alabama 7, Arkansas 5, California 5, Colorada 1, Connecticut 4, Delaware 1, Florida 1, Georgia 9, Illinois 18, Indiana 12, Iowa 10, Kansas 6, Kentucky 10, Louisiana 5, Maine 4, Maryland 5, Massachusetts 10, Michigan 10, Minnesota 5, Mississippi 7, Missouri 13, Nebraska 3, Nevada 1, New Hampshire 2, New Jersey 7, New York 30, North Carolina 8, Ohio 19, Oregon 1, Pennsylvania 25, Rhode Island 2, South Carolina 6, Tennessee 9, Texas 9, Vermont 2, West Virginia 4, Virginia 5, Wisconsin 8. to-day, Mr. Springer submitted various Virginia 4, Virginia 5, Wisconsin 8.

The following states will lose 1 mem ber each : Aiabama, Florida, Indiana, Illinois, Louisiana, Maine, Massachusetts, Maryland, New Hampshire, Ohio, ermont and Tennessee. Pennsylvania would lese 2, and New York 3 mem Arkansas, California, Michigan, Mississppi, South Carolina and West Virginia would gain 1 member each; Minnesotta and Nebraska 2 each, and Kansas and Texas 3 each,

Mr. Tennyson's New Play. The scene of Mr. Tennyson's new play, in preparation at the Lyceum Theatre, is not laid in Asia Minor, as has been incorrectly stated, nor does the beroine, whom Miss Ellen Terry will impersonate, "play a priest." She is the loving, faithful wife of the Governor of Massilia (the ancient Mareilles), and it is her misfortune to have nspired an uncontrollable passion in the breast of a Roman General, who love to the widowed lady. The latter, though cognizant of his share in the cruel deed, feigns acceptance of his suit; but only with the steady purpose of avenging her husband's death, which she does by stabbing the bridegroom with a dagger that she has concealed in her tunic at the altar, in the pres ence of the Flamen Dialis and the esses. It will be inferred from this that the marriage will be represented gious ceremony, after the fashion of the ancient solemn rite of the "Confar-

Much pains will be bestowed upon the illustration of this crowning incident, which will include a procession of the vestal virgins. We need hardly say that Mr. Irving will play the part of the infatuated admirer of this heroic example of conjugal fidelity. The play, which is in blank verse and in two acts, will occupy less than an hou and a half in representation. It will

GREEK AFFAIRS THREATENING

The latest reports from the controversy between Greece and Turkey as to Turkey completing the terms of the Berlin treaty concerning the cresion of Thessaly and Epirus to Greece, looks threatening. Arbitration has failed, and the Greeks are hostile. If hostilities actually break out the European powers which were parties to the Beilin reaty will undoubtedly support Greece, which will create another war between are mostly in favor of Hon. Hone Turkey and the rest of Europe. We make extracts for the information of our readers from the Cates telegrams:

A Paris correspondent says: "All the powers are doing their utmost to calm the excitement in Greece. M. Barthelemy St. Hilaire, Minister of Foreign Affairs, recently sent to Athens counsels by which the Greek Ministers must have been struck."

whom he reports as saying that a retro-grade movement on the part of the Greek government would endanger the throne of King George, and that a rev-olution could scarcely be confined to Hellenic territory. Moreover, he said saly and Epirus, should be reduced to a position of serious danger, France, Italy, and England would surely help

Italy, and England would surely help her. Russia, too, could not abandon her Greek coreligionists to their fate should their existence be imperiled. In the Chamber of Deputies at Athens yesterday, according to a Reuter tele-gram, M. Tricoupis, the leader of the oppositios, demanded explanations from the covernment regarding the m the government regarding the sent position of the frontier ques-n. He declared that arbitration would destroy the work of the Berlin conference. M. Tricoupis concluded by saying: "Europe may tear up the upon our own responsibility, and Eu-rope understands that we are capable of executing its decision. We are reof executing its decision. We are re-solved coursecounty to defend the in-terests and honor of Greece." It is evident from this that even Ministerial reserve and conservatism are powerles to resist the pressure to which the King and government at Athens are now subjected. M. Tricoupis was lately overthrown because he did not move

ow for him.
As an indication of the warlike feror prevailing, the Mayor of Athens, in announcing the finding of the statue of Minerva Victorius, complex the fact with the statement that the discovery is made at a moment when all Greece

CELEBRATED

LIVER PILLS FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPRISIA AND SICK HEADACHE.

Symptoms of a Diseased Liver. DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, sation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done, and a slight, dry cough is sometimes an attendant. The patient complains of weariness and debility he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but eases have occurred where few of them existed, yet examination of the body, after death, has shown the Livez to have been extensively deranged.

AGUE AND FEVEZ. DR. C. MCLANE'S LIVER PILLS, IN DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a PAIR TRIAL.

For all billious derangements, and as a simple purgative, they are unequaled.

REWARD OF IMITATIONS The genuine are never sugar coated. Every box has a red war seal on the LIVER PILLS.

The penuine McLane's LIVER PILLS bear the signatures of G. McLane and FLEMING BROS. on the wrappers.

A PAYING OCCUPATION. The approach of the long winter eyenings calls attention to the matter of a lamp, for without a good light half easure or profit is taken from reading or study. Coal oil is now in general use for illuminating purpos of cities or large towns where used it is the best so for sunlight yet discovered. The prin Lamp is constructed may be said to be the best in use, but the lamp itself has ing done away with in the new aspirant for favor called the "HOME LAMP,"

manufactured by the Home Lamp Co. of Cincinnati. The great objection to most other lamps is their liability to be upset, the trouble to keep them in order, and the poor light given by them. The New Home Lamp is Nickel Pia ed, and almost a fac similie of the Saudent Lamp; it has a handsome ornamented

clamp by means of which the lamp canbe at once easily adjusted in any posi tion upon the center table, piano, music rest, sewing machine, desk, or by means of a handsome bracket, which goes with the lamp, can be placed upon the wall, and in whatever position it is placed it is absolutely safe. This is the great feature of excellence, but the New Home Lamp combines also the patent argand burner, a filling indicator and match box. No lamp has ever before been received with such universal favor or received such strong recommendations from the leading journals of Cincinnati. It is also endorsed by such men as the mayor and postmaster, several insurance presidents and express agents of that city as the safest, most convenient and best lamp made. The Company desires agents in this locality, and any smart lady or gentleman can make a handsome income during the

next six months by canvassing for its sale. There is hardly a dozen families in this county who will not want one, and its price is so low as to bring it within the reach of all. For further information address, Home Lamp Co., Cincinnati, O., mentioning our paper and they will give you full particulars pan exclusive territory to canvass in. nov 28-13t.
